1. Lay the machine down in the operating position.
2. Make sure E-Stop is in the off position before starting.
3. Remove the (4) screws that secure the touchscreen mounting bracket to the rear and right-side frame panels. These will be used for reassembly.
4. Unplug the existing touchscreen from the harness wiring.
5. Remove the (2) flathead screws that mount the touch screen guard to the mounting bracket. These will be used for reassembly.
6. Loosen and remove the (4) mounting feet. These are the tabs that secure the touchscreen to the mounting bracket.
7. Remove the defective touchscreen and replace with the new. Replace the (4) mounting feet and tabs and tighten.
8. Re-install the touchscreen guard using the (2) flathead screws removed in step #5.
9. Plug the new touchscreen into the harness wiring.
10. Re-install the touchscreen mounting bracket to the rear and right-side panels using the (4) screws removed in step #3.
11. Power the machine up and make sure the touchscreen operates properly.
