

Installation Instructions

PART NUMBER	158-8623	
PART DESCRIPTION	WHISKER SPRING ASSEMBLY	
REV DATE	08/01/2007	
MACHINE MODELS	KW	

TOOLS NEEDED	PARTS
1/8" Allen Wrench Ruler Silicone	
TECHNICAL NOTE	
Please thoroughly read the instructions prior to performing the installation of this assembly. To avoid any potential problems, if at any time during the process you have a question, stop and contact our Tech Support department at the numbers listed below.	

STEPS

1. Remove vinyl cap from the shorter (inside) end of the applicable spring being replaced.
2. Loosen the two set screws in the Whisker Spring Mount Block & remove spring from block.
3. Push the plain end of the replacement spring through the hole in the block. Using the ruler, adjust the spring so it is exactly 6" from the frame panel to the end of the vinyl cap on the spring. Adjust the bent end of the spring slightly downward towards the lane & tighten set screws in block to secure the spring in place.
4. Apply some silicone into the bottom of the vinyl cap included w/ the replacement spring and push completely onto the plain end of the spring.
