Installation of New Whisker assembly

1. Start with the lane machine in the up position.
2. Loosen the two set screws located in the bottom of the whisker mounting block assembly.
3. Remove the old whisker assembly and insert the new whisker assembly into the mounting block.
4. Insert the whisker so that a measurement of $5 \frac{3}{4}$ " is reached between the edge of the mounting block and the very tip of the whisker assembly.
5. Tighten the set screws.
6. Inspect the operation of the whiskers while the lane machine is traveling onto the lane.
