Basic knowledge on ALL aspects of the lane machine, including mechanical, electrical and operating software

TOOLS NEEDED:

KOSI (mandatory for FLEX, FLEX Walkers and IKONs)

Thank you for purchasing the new K3 Select Duster Kloth!

With the larger roll of duster cloth, your lane machine settings will need to be adjusted. In particular, the 'Duster Unwind Limit' and the 'Number of Lanes in Cloth' default settings will need to be changed.

To fully utilize your new K3 Select Kloth, please make sure your Kosi is up to date. If your Kosi is not updating due to it being an old version, please use the link below to download the latest version. Now that Kosi is updated, use Kosi to update the machine for the correct settings for K3 by selecting the K3 in the new duster setting screen.
