Removal of Cleaner Pump assembly

1. With the machine setting down in the operating position, remove the screws that fasten the 7-pin side cover to the machine. You will have one in the oil compartment and one in the cleaning compartment as shown below.

Oil Compartment 7-pin side

Cleaner Compartment 7-pin side

2. With the lane machine standing in the upright position, remove the three screws that hold the side cover to the machine and set the cover aside.
3. Unplug the connector for the motor.
4. Open the aluminum pivot arm clamp and lift the hose up and away from the pump assembly.
5. Remove the four mounting screws that hold the motor to the mounting bracket and slide the motor out.
6. Take the new motor and slide into the exact place that the old one was removed and fasten into place.
7. Place the hose back into place and clamp down.
8. Perform a few cleaner calibrations to ensure the pump is working properly.
9. Replace cover.
10. Return defective cleaner pump for warranty if applicable.
