website [www.kegel.net](http://www.kegel.net)

- 1) Disconnect power & lay the machine down in the operating position.
- 2) Using the Phillips screwdriver & 11/32" wrench, loosen & remove the fasteners securing the existing keypad mounting bracket from the rear & right side frame panels.
- 3) Unscrew the cable from the serial port on the back of the existing keypad assy.
- 4) Loosen the keypad mounting tabs, securing the keypad to the mounting bracket. Remove keypad from the bracket.
- 5) Install the replacement keypad into the bracket cut-out, and secure in place w/ the mounting tabs removed in step #4.
- 6) Plug the keypad cable into the serial port in the back of the keypad and screw the plug in place.
- 7) Using the fasteners removed in step #2, mount the bracket back into the machine, making sure to completely tighten all of the screws.
- 8) Apply power to the machine and check for proper operation of the new keypad.
