## Removal of cover

- 1. Remove the grey cover from the rear of the charger by removing the 2 screws.
- 2. Loosen the three screws securing the white plastic strain relief bar & remove.
- 3. Remove the red and black wires from the circuit board.
- 4. Fasten the cord assembly with the Red wire to the POS position and the Black wire to the NEG position.
- 5. Install the white stress relief bar and tighten screws completely.
- 6. Use the supplied wire ties to secure the wires approximately 1" back from the heat shrink.
- 7. Re-install grey cover.
