Rev. 3.14

- 1) Using the .050" Allen Wrench, loosen the set screw in the Momentary Wheel Housing.
- 2) Push the Momentary Wheel shaft out of the housing & old wheel.
- 3) Place the new Momentary Wheel inside the housing and push the shaft through, making sure the shaft flat spot is on the same side as the set screw, and faces up towards the threaded hole.
- 4) Making sure the set screw is seated on the shaft flat spot, tighten the set screw completely.
